CHYTEN TUTORS AND TEST PREPARATION ANNOUNCES NEW WORKBOOK AIMED AT HELPING HIGH SCHOOL STUDENTS BETTER PREPARE FOR ACT

*Chyten Educational Services Leads the Way in Providing Students with
New Strategies Necessary to Excel on ACT*

This week, Chyten Tutors and Test Preparation of Wake Forest announced the release of its newest book, Mastering the ACT, A Comprehensive Workbook to maximize scores on the ACT English, Math, Reading, Science and Essay.

Chyten's founder and CEO Neil Chyten worked with more than a dozen educational experts to identify the most effective strategies to help students maximize their test scores. Mastering the ACT prioritizes test-taking strategies and provides students the tools they need to achieve ACT success.

"Virtually every company in the country teaches that the ACT is not a strategic test but we take the exact opposite approach," said Chyten. "After identifying consistencies that occur in every ACT test, we devised strategies that allow our students to master all types of ACT questions. We look at every academic challenge from a strategies-first perspective, and this latest book really echoes our philosophy of educational excellence and solidifies our position as the leader of ACT preparation."

Chyten's latest educational resource is organized by sections of the ACT and provides a comprehensive look at each subject area, including English, Math, Science and Writing. Each section in Mastering the ACT contains sample questions, passages or math problems and allows test takers to fully experience the ACT prior to actually taking the exam.

“We have long been at the forefront of ACT preparation and technology and by compiling our strategies and techniques into one comprehensive manual, we believe we can help students really excel on the ACT,” said Chyten Educational Services Founder/CEO Neil Chyten. “When we began this process, we were surprised by the lack of strategic approaches offered by other books on the market. Mastering the ACT is the first book that not only identifies, but also prioritizes, the most effective strategies. The ACT is often considered an achievement test, an exam that assesses developed skill or knowledge, but students and parents should know that ACT preparation is key to test-taking success.”

About Chyten Tutors and Test Preparation

Chyten Tutors and Test Preparation of Wake Forest is a premium tutoring and test preparation company. We provide expert tutoring for grades K through 12 in all subject areas, including academic enrichment. We specialize in preparing students for the ACT, SAT, PSAT, SSAT, and other standardized tests. All of our tutors hold a master’s degree or higher and have taught for at least 2 years.
